Article for correction

thalassinos@ersj.eu via unicert.gr to tulus, Tulus, me

Feb 6, 2018, 2:11 AM

Dear Colleague, Dear Tulus,

Please find an article from the 2nd workshop for corrections. It is an interesting work however it needs some improvements in editing by the author and corrections in the reference list according to the first references as samples.

With your permission I would like to ask the author Dr. SUYANTO, if he is interesting to see this article published in a collective volume edited by a USA publishing company indexed in Scopus which is very prestigious for his academic career. The volume will be distributed by the publishing company in many University libraries all over the world. The author will receive a hard copy and he will be able to buy extra copies in a discounted price if he wants. There is no extra publication fee for this excellent offer, is it a gift from me to Tulus' friends and colleagues because of our very good cooperation so far.

Dear Dr. SUYANTO, please correct the attached version, compare it with the original one and let me know about my offer.

Warm regards,
EI

Issue 1, 2018. The journal will be fixed soon as requested by you.

I strongly agree that the draft of my scientific journal is edited by a publishing in the proto-scopus prestigious USA, and can be published scientific journals in ERSJ.

Thanks for a very interesting offer from my research to be published in a scopus scoped journal, and no additional publication fees. Yours sincerely to Profesor Tulus Suryanto.

Thank you for your kind attention and cooperation.
Yours sincerely from Jakarta Indonesia
